The Montclair Special Education Parent Advisory Council (SEPAC), a state mandated organization, is a parent led group of parents, professionals and concerned community members who meet monthly with the administrators of Montclair’s special education programs to share information, concerns and ideas as well as to advise the administration about issues affecting the education of children with disabilities.

The SEPAC’s overarching goal is to improve the instructional process for children classified for special education and related services and to promote the inclusion of children with special needs with the necessary supports in place within their schools and the community at large. We encourage following “best practices” in the identification and evaluation of these students and in the provision of special education services.

The SEPAC seeks to keep parents informed and involved in their children’s education by providing a means of addressing policy issues and problems related to their children’s education; by providing topical workshops that address identified problems and by encouraging innovative education practices through specific committees and initiatives. We welcome parents and guardians to participate, to share information, to raise issues or concerns, to learn and to teach each other.

Montclair SEPAC meets generally on the 3rd Tuesday of the month from 7-9 pm at one of the District’s schools. The first meeting this school year will be on Tuesday, September 21, 2010 at Hillside School.
