Harvest Celebration at Edgemont
October 15, 2010

Edgemont Montessori School will host our 10th annual Harvest Day Celebration in October. Volunteers assist at stations where each class has a chance to experience gardening, cooking, exercising, and educational demonstrations all about the gifts of Autumn and the harvest. A variety of animals from Quiver Farm graze on the front lawn for visiting and petting. Children see a live beehive demonstration and learn about composting, recycling and nutrition. Every 10 minutes, each class rotates through a station where they experience another hands-on activity. You will be surprised by the number of children who taste and enjoy their own homemade vegetable soup!

We need your time, talent, equipment, and vegetables! Please come share in this special day and experience Edgemont’s Harvest Celebration with your child and the school community. Whatever time you have to spare or resources to share, we appreciate. A preliminary list of stations is on the back of this flyer. This event is most successful when we have many volunteers to help out. Please complete the information and return it to “PTA Harvest Team” in your child’s backpack.

Questions? We will be speaking about this event at Edgemont’s welcome meeting for new parents on September 28. Or contact us by phone or email.
