TEENS AND MARIJUANA
WHAT MONTCLAIR PARENTS DON'T KNOW

A panel discussion for
Middle and High School Parents.

Teen marijuana use is up nationally for the fourth year in a row to a 30 year high.

Alcohol has declined by up to 50% in the last 2 decades, and other drugs are going down as well.

1 in 15 High School Seniors smoke marijuana every day.

When: April 11, 2012
Where: Montclair High School
Main Building - LGI Room
Time: 7:00 - 8:30 PM

In the last 15 years marijuana potency has increased by 175% >>> 60% of teens being treated for addiction are there because of marijuana, as much as all other drugs combined >>>
Students who smoke marijuana are more likely to drop out of high school >>> Half of all teen drivers injured in car accidents tested positive for marijuana >>> One quarter of high school seniors said they drove with someone high on marijuana in the last 2 weeks >>>
Female marijuana users are five times as likely to suffer from depression as non-users >>>
Teen marijuana smokers are 3 times more likely to have suicidal thoughts.
